

# Google Tour Creator

Create and share your virtual tour on Google Poly

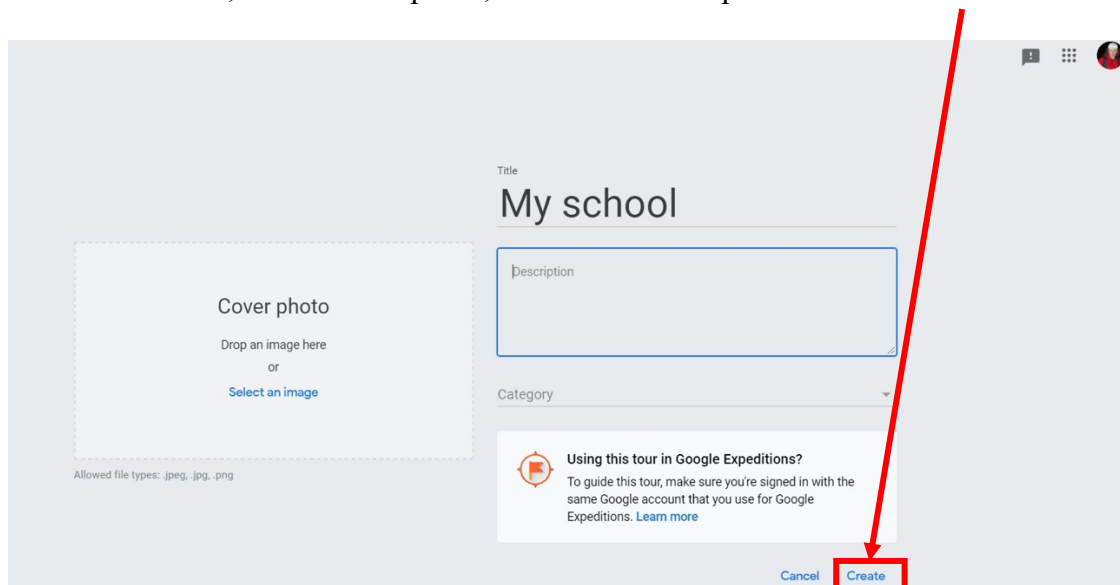

1. Open <https://arvr.google.com/tourcreator/> on your browser. Click **Get Started** and sign in with your Google account.

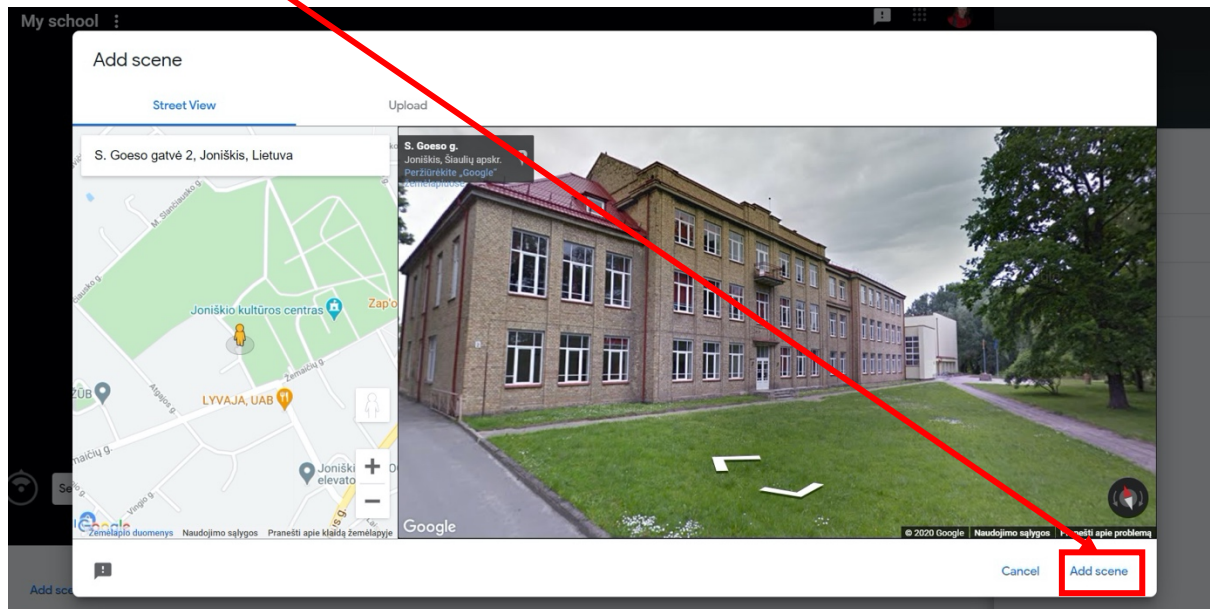

2. Click **New Tour** to start creating your VR tour.

3. Add Title, select Cover photo, write short description and click **Create**.

4. Add first scene from *Street View* by writing address or just *Upload* 360° or 180° photo.  
Click *Add scene* to setup your scene.

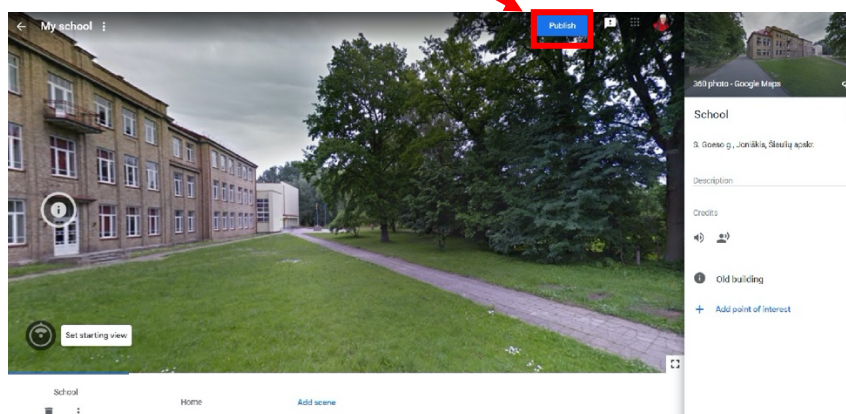

5. Write scene title, Add points of interest. Add next scene to your tour.

6. To add your 360° photo which is shared on Google Maps with **Google Street View** app try to drag Pegman to a place on the map where is your shared photo and **Add scene**.

7. When all scenes are ready you can **Publish** your tour

8. Copy your tour link to share with your friends and click **Done** to finish creating your tour.
