

Canva.com

Editing video

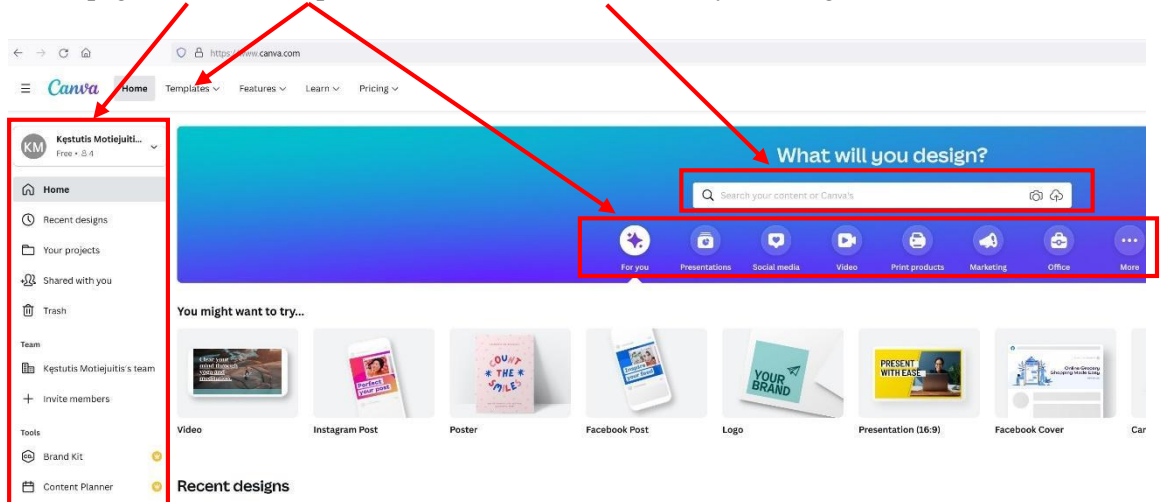

1. Open your browser and enter [Canva.com](https://www.canva.com) address. On the home page you need to **Sign up** (you can use your google account) for the first time. If you have a canva.com account, you can just **Log in**.

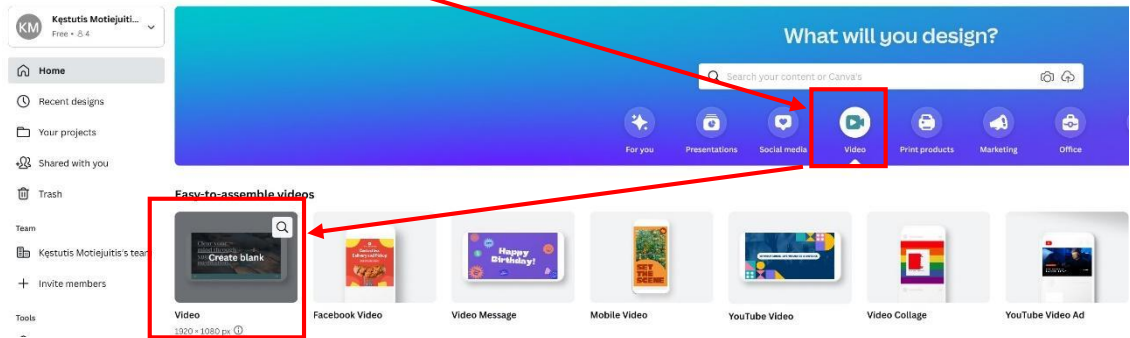

2. When you Log in your home page, the use google account language. The language can be changed using **Account Settings**.

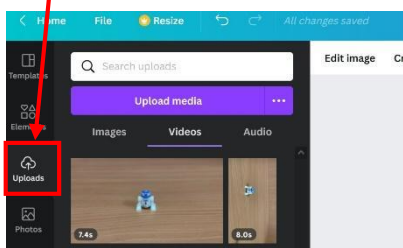

3. Home page menu and templates. Use the search box to find your design.

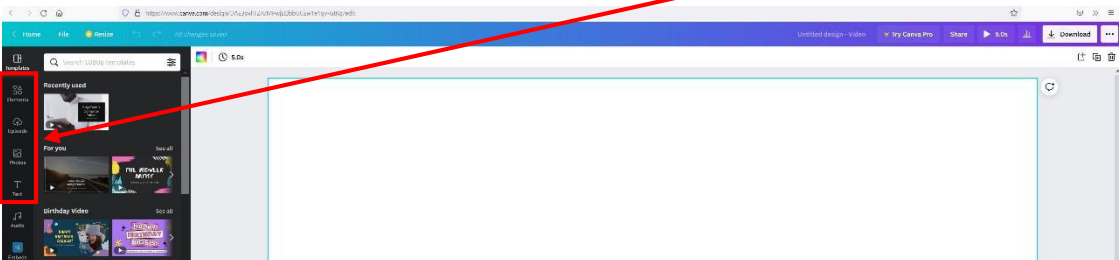

- To create a video, press **Video** button below the search bar and choose **Create blank** video.

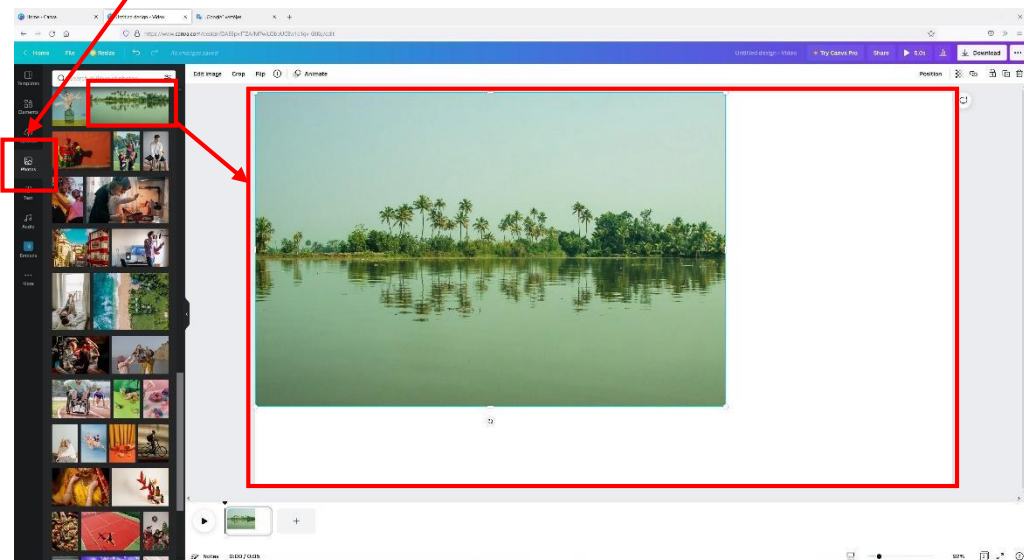

- Uploads** gives access to your media files (images, videos, audios).

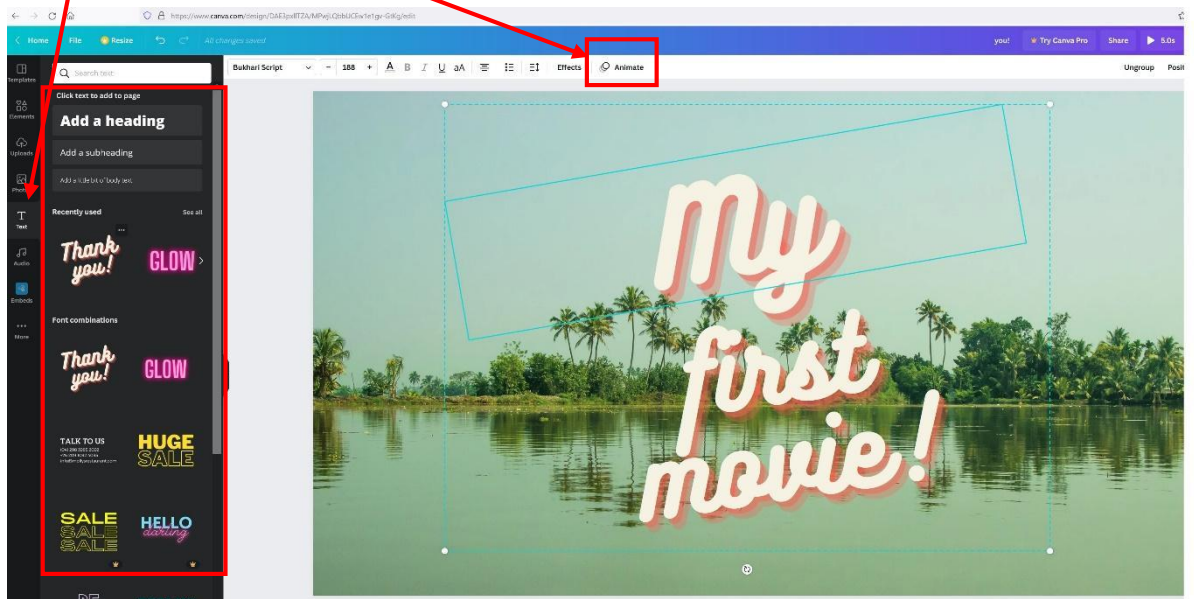

- Usually movies start with an introduction. It can be realized by using **Elements**, **Pictures**, **Text** or **Uploaded** video.

- Click on **Picture** or **Video** to add it to your movie. Resize a **Picture** or a **movie** to cover all the blank space.

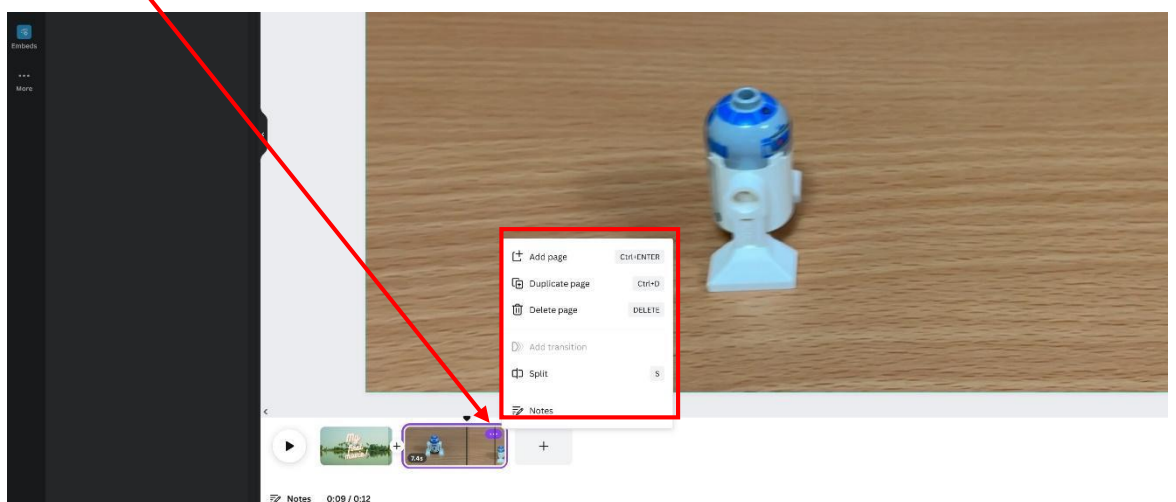

- Enter **Text** with the movie title. Choose any free text design. You can resize, change font, color etc. Also, it is important to **Animate** your text.

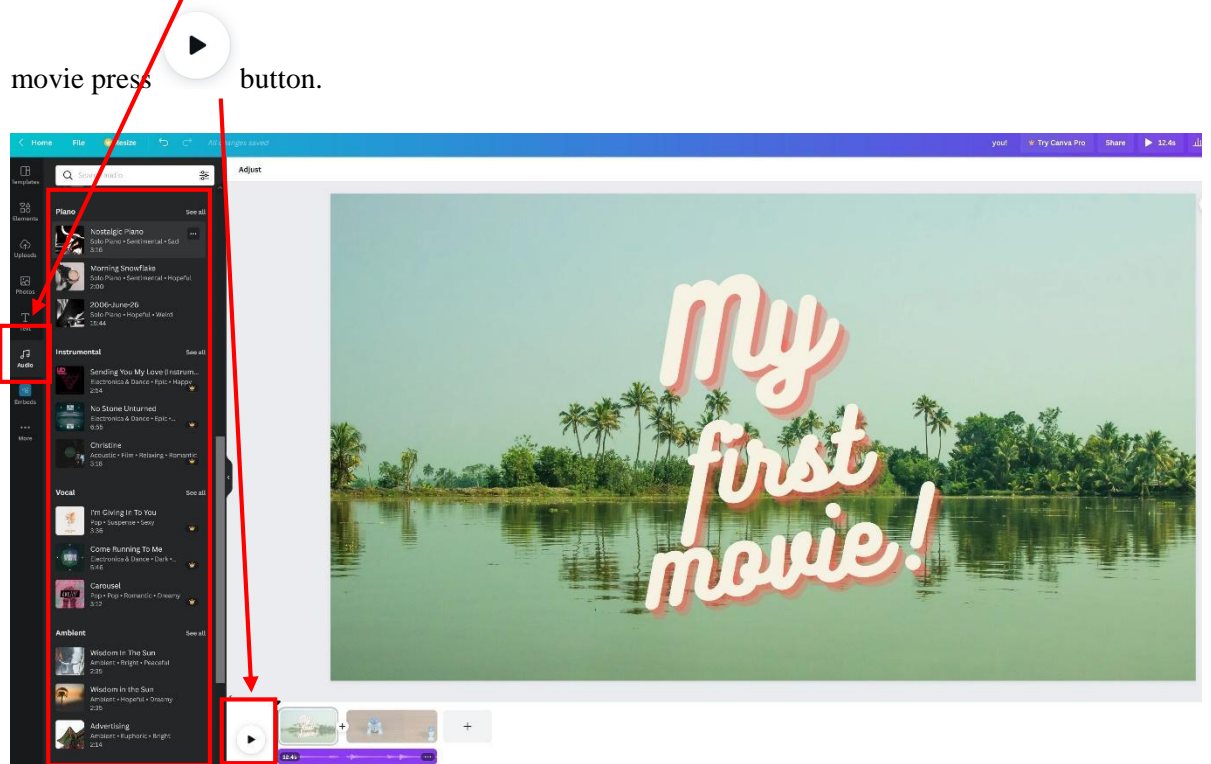

- When the intro is ready, click on + at the bottom of window to add **Next page** (video part)

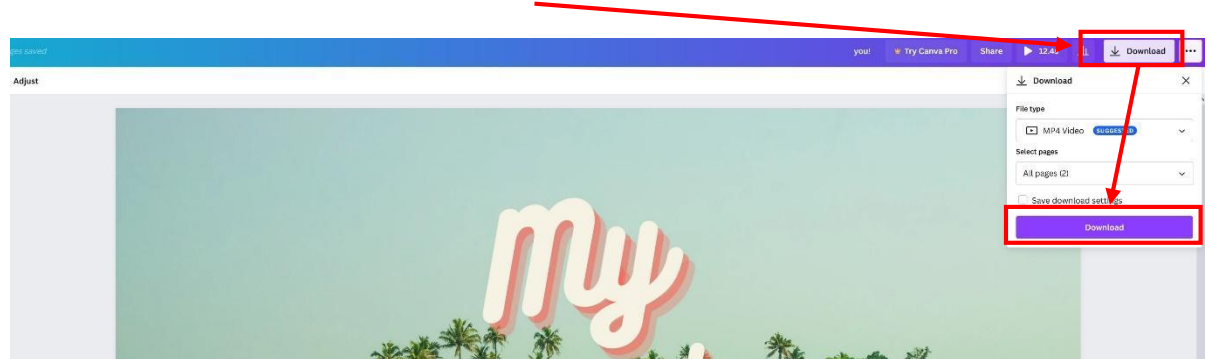

- Add your uploaded (from Uploads, see part 5) video to the movie. Press  to open the page editing menu. You can **Split** your video to different parts where you can add any elements with texts, **Duplicate** or **Delete** the page.

11. Finally, add **Audio** to the movie. Make sure the audio starts from the beginning. To play the

12. When the movie is finished, you can **Download** it to your computer.

13. You can find **Share** options by pressing .
